

2' x 2' INTERLOCKING TILE

TILE IS CUT TO A PERFECT 2' X 2' SQUARE

CLOSEUP OF TOP PATTERN PUNTER™

SIZES AVAILABLE

Size	Thickness	Weight	Item Number
2' x 2'	3/4"	17 lbs	DRV4-24F4

ENDLESS OPTIONS

The FLEXGARD™ 2' x 2' Interlocking Tile is tough and durable all-rubber solution for those who need to expand their current floor configurations. The universal interlocking edges allow this tile to expand to an endless array of layout options. All edges interlock to any edge of another 2' x 2' Interlocking Tile. The bottom of this tile has a pattern called "Wide Rib". This allows air to circulate under the tile aiding in the prevention of condensation under the tile. The Punter™ pattern on the top is a great non-skid surface that protects from costly slips and falls. It's resilient texture provides great impact protection and shock absorption.

FEATURES

- Superior Impact Protection
- Punter™ top for great slip resistance
