

Z-Tiles

Z-Tiles stand up to the demands of athletic facilities by providing superior durability, resilience, spike resistance, and traction.

- Recycled Rubber
- Slip Resistant
- Limitless Color Options
- Environmentally Friendly
- Design Flexibility
- Easy Installation
- Sound & Shock Absorbing
- Easy Maintenance
- FloorScore Certified

Z-Tiles are Great for

Home Gym Flooring	Stationary Bike Matting	Physical Therapy Facilities
Ski & Snowboard Shops	Ramps & Inclines	Schools
Weight Rooms & Gyms	Baseball Areas	Locker Rooms
Heavy Traffic Areas	Ice Rink Walkways	Multi-Purpose Rooms

Flooring in athletic facilities must stand up to a variety of special demands ranging from the punishment of free weights to the shearing effect of ice skates. It must also provide noise reduction and a comfortable surface for the athletes. Recycled rubber flooring meets all these requirements. Z-Tiles offer superior durability, resilience, sound absorption, spike resistance, and traction. These resilient tiles are engineered so precisely that the intricate interlocking pattern nearly disappears as the tiles are installed. The unique tab design holds the tiles together securely without the need for expensive adhesives, tapes, or the labor to apply them. Z-Tiles can also be disassembled and reassembled, time and again without damaging the tiles. Z-Tiles also offer great anti-fatigue qualities. Fabricated from fine rubber granules, their resilient properties give superior underfoot comfort to cushion the strain from running, exercising, and walking. On top of that, they are also very easy to clean.

Made From Recycled Rubber!
